WORK EXPERIENCES

Commure

Lead, Growth Operations

April 2026 – Present

Duties & Responsibilities:

- Lead Growth Operations, bridging business, data, and technology.
- Drive revenue benchmarking, QA, and insights to inform growth decisions.
- Build and automate scalable benchmarking and reporting systems.
- Collaborate with Engineering to debug EHR/operational data and resolve inconsistencies.
- Translate business challenges into data-driven solutions and present insights to leadership.

Data Operations Manager

January 2025 – March 2026

Duties & Responsibilities:

- Lead a team in Revenue Cycle Management and Financial Data Analytics, driving data-driven decisions across the organization.
- Develop scalable data solutions and dashboards using PostgreSQL, Snowflake, Power BI, and Advanced Excel (VBA) to optimize reporting and analytics.
- Automate workflows and enhance efficiency with tools like Retool, Notion, and Linear.
- Ensure data integrity and quality through robust governance and validation protocols.
- Analyze financial trends to identify opportunities, optimize costs, and support strategic initiatives.

Porter

Senior Data Analyst

July 2024 – January 2025

Duties & Responsibilities:

- Collaborate with management to identify and prioritize business needs, aligning data analysis with organizational goals.
- Design, develop, and manage comprehensive stakeholder reports to provide critical insights for business decisions.
- Define and document business-as-usual (BAU) requirements, ensuring smooth and efficient daily operations.
- Prepare and present reports communicating patterns, trends, and predictive analyses to support strategic planning.
- Conduct ad hoc analyses to provide timely and actionable insights for addressing emerging business challenges.
- Acquire, maintain, and optimize data from primary and secondary sources, ensuring the accuracy and efficiency of databases and systems.
- Perform routine data quality checks, resolving inconsistencies to uphold data integrity and support informed decision-making.

ShopUp

Automation & Analytics Expert

February 2022 – July 2024

Key Highlights:

- **The Star Achiever Award, ShopUp | 1st and 2nd Quarter of 2023:** Awarded for exceptional performance and outstanding contributions to the company. Recognized as a **once-in-a-lifetime honor**, this award underscores my dedication and significant impact on organizational success during a pivotal period.
- Successfully managed and optimized ShopUp's HRIS, TalentX, achieving a 15% increase in data accuracy and functionality.

Duties & Responsibilities:

- Manage and ensure the optimal functionality of ShopUp's HRIS, TalentX, for data accuracy.
- Drive and implement automation initiatives across HR processes to enhance operational efficiency.
- Design and execute performance appraisal systems that yield actionable insights for employee development.
- Conduct in-depth HR and revenue data analysis to provide strategic, data-driven recommendations.
- Collaborate with cross-functional teams to ensure HR processes align with organizational objectives.
- Spearheaded the continuous improvement of HRIS and automation solutions to meet evolving business requirements.
- Lead the development and integration of innovative data analysis tools.
- Establish and maintain robust data governance protocols to ensure the integrity and security of HR data.
